

# Owl Class

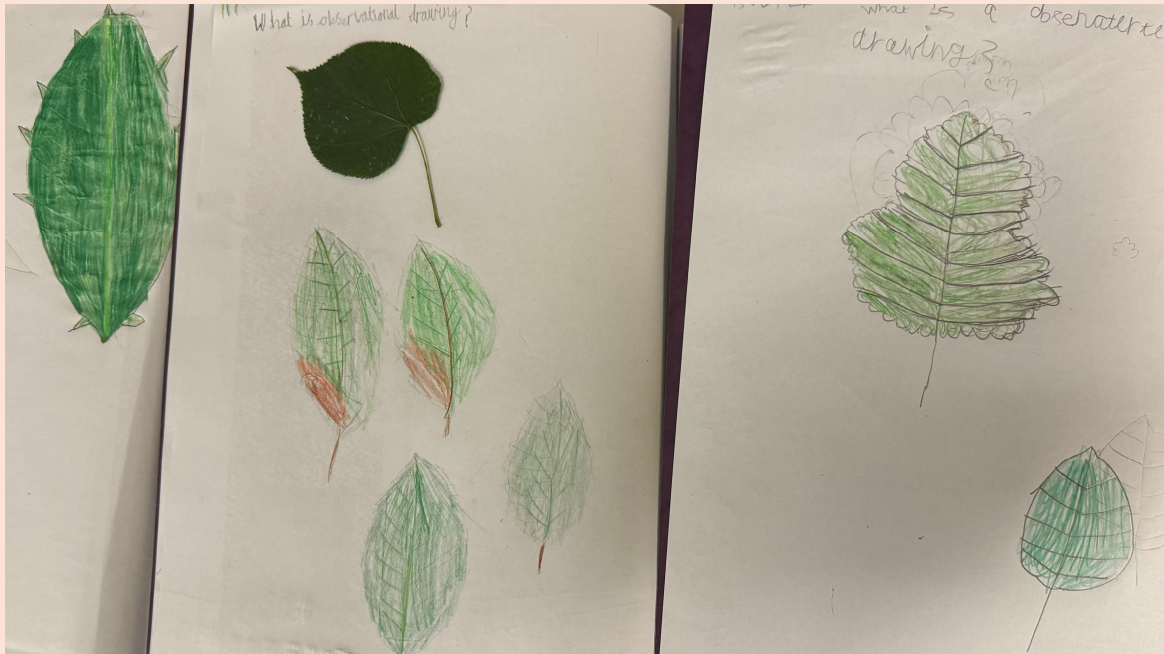

This week, in Geography, we went on a trip to Antarctica!

We explored why it would be so difficult to live there and wrote postcards home to describe our adventure!

Dear Mum It was great in Antarctica apart from it being freezing. We went diving into the water and researched it and we saw a few penguins swimming. When we went back to the surface I was warmed up and they gathered the information and we went to the research station.

Next, we went on skidoos (snow mobiles) and checked the Antarctic for animals.

DA, Y3

In Art, we have continued to develop our observational drawing skills. We explored our outside area and collected a variety of leaves and then used pencils to sketch them. We were very impressed with the attention to detail that the children used!
